

ANIMAL HEALTH
MONITORING

In accordance with FELASA
recommendations.

3R'S PANOPTIC PANELS

Environmental sampling of either shake cage filters, exhaust air filters or swabs of plenums offer a new and innovative approach to rodent health monitoring. Use these panels either as an adjunct to your health monitoring programme or to replace sentinels in your facility altogether.

- // Utilises Taqman real-time PCR
- // Fully automated high-throughput extraction and analysis
- // Bespoke panels without extra costs
- // Urgent analysis – turnaround 24 hours
- // Complementary consultancy service by a specialist microbiologist
